

AppCompatActivity

```
classDiagram
    class AppCompatActivity
    class ShowPicture["com.example.memorism.Show Picture"]
    ShowPicture --|> AppCompatActivity
```

The diagram illustrates a class inheritance relationship. At the top, a white rectangular box with a thin black border contains the text 'AppCompatActivity'. Below it, a gray rectangular box with a thick black border contains the text 'com.example.memorism.Show Picture' on two lines. A solid blue arrow points vertically from the top center of the gray box to the bottom center of the white box, indicating that 'com.example.memorism.Show Picture' inherits from 'AppCompatActivity'.
